

**Moonview Sanctuary Medical Director Dr. Terry Eagan
Honored By Sierra Tucson**

**Internationally Known and Recognized Treatment Center
Bestows Spirit Recognition Award on Dr. Eagan**

Los Angeles, CA (April 30, 2008) - Moonview Sanctuary, an exclusive, for-profit, non-residential treatment and optimal performance center which specializes in combining Eastern and Western approaches, announced today that its Medical Director, Dr. Terry Eagan, has been honored by Sierra Tucson with its Spirit Recognition Award, which highlights a clinical professional who has assisted clients in different specialty areas, such as eating disorders, chemical dependency or mental health. The Award was given this morning in Los Angeles during the treatment center's "Gratitude for Giving" breakfast.

"In honor of our 25th anniversary, we wanted to recognize professionals in the Los Angeles area who have made a significant contribution to their community," said Christi Cessna, Marketing Director for Sierra Tucson. "Dr. Eagan was nominated and chosen by L.A. clinicians for his commitment to the well being of the whole person in body, mind and spirit. He is admired for his ethics, expertise, and most of all his compassion."

Along with Drs. Laurie Ann Levin, Stephen Sideroff and Marlene Doctorow, Dr. Eagan developed the programs that became the foundation for Moonview Sanctuary. As the Medical Director, Dr. Eagan pursues his mission to encourage ongoing spiritual exploration in the field of psychiatry and to advance the integration of medical and psychiatric services in the delivery of healthcare.

A graduate of the University of Tennessee, College of Medicine in 1987, Dr. Eagan completed his medical training in psychiatry at the Los Angeles County - University of Southern California (USC) Medical Center. After serving as chief resident in psychiatry at USC from 1990-1992, Dr. Eagan developed a highly successful private practice in Beverly Hills, CA. During his 16 year professional career, he has served in the capacity of Medical Director for numerous treatment centers such as Sherman Oaks Medical Center, Eating Disorder Center of California, Milestones Ranch Malibu and Bridges to Recovery.

Dr. Eagan is board certified by the American Board of Psychiatry and Neurology and is a Diplomate of the National Board of Medical Examiners. He has served as Assistant Clinical Professor at USC School of Medicine and he also helps shape healthcare policy in The United States as a consultant to the Physician's Advisory Board of the National Republican Congressional Committee, serving as Honorary Chairman for the State of California.

Having treated over 20,000 patients during the course of his career, many of whom have been at the extremes of celebrity, Dr. Eagan is sensitive to the complexities that arise from being in the public eye. He has had the opportunity to work with a number of patients from the entertainment industry, including film, television and music, as well as politics and business. Born the son of a minister, Dr. Eagan has consulted with numerous clergy of various denominations regarding both psychiatric issues and spiritual concerns.

Dr. Eagan is an internationally respected physician and is sought out as a lecturer and consultant for public school systems, financial institutions, community health centers, television and film productions, law enforcement agencies, hospitals and universities. He has extensive experience working with research clinical trials, having been involved in numerous psychopharmacology studies for eight international pharmaceutical companies. He also serves on the National Speakers Bureau for Eli Lilly Pharmaceuticals, Forest Pharmaceuticals, Wyeth-Ayerst, Inc. and Sepracor Pharmaceuticals, among others, lecturing on psychopharmacology to physicians of all specialties across the United States.
